

# Aufbauanleitung für Swing Like a Tree

1. Lege alles geordnet vor dich.

## Das sollte in deinem Paket sein:

Viele Leisten für Baumform  
1 Spitze für den Baum  
2 Fußteile  
mehrere Metallstäbe zum Zusammenschrauben als Stamm  
1 Schraube und Unterlegscheibe  
1 Holzstück als unteren Stamm  
1 Spitze für den oberen Abschluss

2. Schraube die Metallstäbe zusammen.  
Der Stab mit dem Ring ist der Unterste.

3. Füge die beiden Fußteile übereinander.

4. Schiebe den Stab durch die Teile.

5. Schraube von unten durch die Unterlegscheibe den Stab fest.

6. Schiebe die Leisten von oben auf den Stamm.

7. Schiebe nacheinander alle Leisten der Größe nach von oben auf den Stamm.

8. Als Letztes setze die Spitze oben auf den Stamm.

Drehe die Leisten so, wie dir dein Baum gefällt.

## Assembly instructions for Swing Like a Tree

1. Place everything neatly in front of you.

### This should be in your package:

Many slats for the tree shape  
1 top for the tree  
2 foot pieces  
some rods to screw together as the trunk  
1 screws and washer  
1 small wooden piece for the bottom

2. Screw the metal rods together.

3. Place the two foot pieces on top of each other.

4. Insert the rod into the upper opening.

5. Secure the rod from below using the washer and screw.

6. First, slide the small wooden piece onto the trunk from the top.

7. Slide all the slats one after another in order of size onto the trunk from the top.

8. Finally, place the top on the trunk.

Rotate the slats to arrange your tree as you like.

## Montage-instructies voor Swing Like a Tree

1. Leg alles geordend voor je neer.

### Dit moet in je pakket zitten:

Veel latten voor de boomvorm  
1 top voor de boom  
2 voetstukken  
staven om samen te schroeven als stam  
1 schroeven en sluitring  
1 klein houten stuk voor de onderkant

2. Schroef de twee staven aan elkaar.

3. Plaats de twee voetstukken op elkaar.

4. Schuif de staaf in de bovenste opening.

5. Bevestig de staaf van onderaf met de sluitring en schroef.

6. Schuif eerst het kleine houten stuk van bovenaf op de stam.

7. Schuif alle latten één voor één op volgorde van grootte van bovenaf op de stam.

8. Als laatste plaats je de top op de stam.

Draai de latten zodat je boom er naar wens uitziet.
