

Assembly instructions for Straight Like a Tree

1. Place everything neatly in front of you.

This should be in your package:

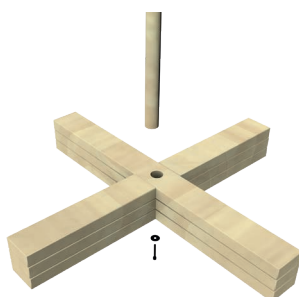

Many slats for the tree shape
2 foot pieces
2 rods to screw together as the trunk
2 screws and washers
2 small wooden pieces for the top
1 small wooden piece for the bottom

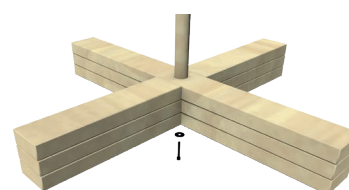

2. Screw the two rods together.

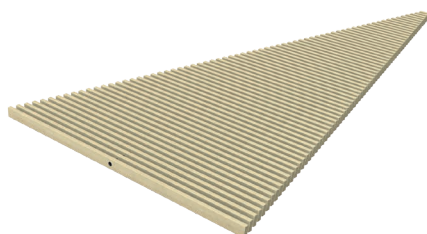

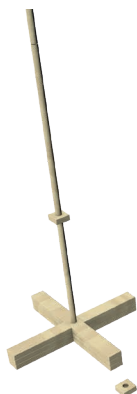

3. Place the two foot pieces on top of each other.

4. Insert the rod into the upper opening.

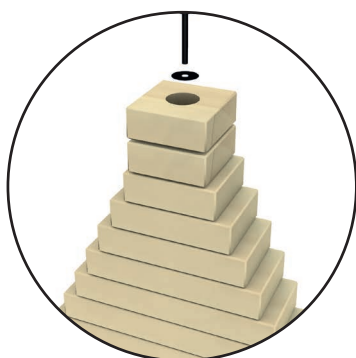

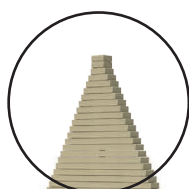

5. Secure the rod from below using the washer and screw.

6. First, slide the small wooden piece onto the trunk from the top.

7. Slide all the slats one after another in order of size onto the trunk from the top.

8. Finally, place the two small wooden pieces on top and screw them onto the trunk using the washer.

Rotate the slats to arrange your tree as you like.

- 9.
